Bottom View

Bottom View

(No Bulbs Furnished)
BOTTOM PLATES REMAIN ON BOAT PERMANENTLY

INSTRUCTIONS

Make a small hole for wire connection.

Bring wire through hole, connect to "F" socket, take Bottom Plate (use Stove Bolt of wood screws) and fasten to deck using holes marked "E."

"A" in lamp, fits over bulb, slide backwards so that hole "B" in lamp slides and catches under rivet "D" in plate, screw down the 2 machine screws marked "C" in lamp and lamps are ready for use.

Rebulbing: To change bulbs, take out 2 screws from holes "C" (half way only), slide lamp forward and pull off lamp—rebulb.

Storing boat for winter, etc., do same thing as rebulbing, also taking out bulb and putting cap "H" over connection "F" will keep connections dry and ready for use.

To Replace Glass—Take screws from "C" and "J" only.

We recommend the use of a rubber gasket between bottom plate and deck making it water tight.

CAST BRONZE LIGHTS
Improved

STERN LIGHT

Fig. 375

CAST IRON SHAFT or FLANGE COUPLINGS

Figure No. 327

Made from Fine Gray Iron Castings and Accurately Bored to Size, Standard Keyway and Set Screws

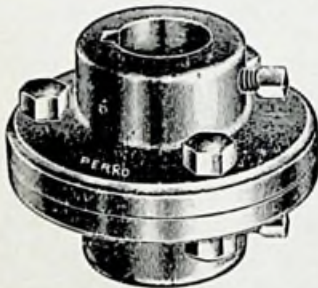

Fig. 327

“PERKO” Flange Couplings are perfectly made and are interchangeable as to shaft size within the limits of each size of coupling. For example—a 7/8 inch and 1 1/8 inch shaft may be coupled by using a No. 2 male bored for one of those sizes and a No. 2 female bored for the other size. To join a 1 1/8 inch and a 1 1/4 inch shaft a similar combination of the No. 3 coupling may be used.

Regular couplings are suitable for most marine engines. The Heavy couplings are best for fishing and other work boats having heavy duty engines and where great strength is desired.

Each coupling is fitted with standard keyway and set screws.

When ordering be sure to give number and shaft size wanted.

Shaft Size	REGULAR	Approx. Wt. Each	Keyways	Each List
No. 1. 3/4 in., 7/8 in., 1 in.	5	1/4 in.	\$2.00

PERKINS MARINE LAMP CORPORATION

TWO-IN-ONE FOUNT

Fig. 334

Will fit the following:
 Class 2 Side and Bow Lights.
 Class 3 Side and Bow Lights.
 No. 21 Anchor Lights, 8 in. Globe Light.

Also made for (class 1) Wonder Combination, Durable Combination, Durable Stern

and 6 in. Globe Lights and all other style lights using this standard size founts.

Standard Equipment: with Ediswan Base Double contact socket, (can also be furnished with Candelabra socket.

List price, each, complete with burner (without bulb)\$2.00

TWO-IN-ONE FOUNT FOR LARGER SIZE LAMPS

(Also made for old style lamps using spring type founts.)

Fig. 335

These "Perko" Combination Two-in-One Founts are made on the same principle as Fig. 334, with the exception that it is made separate, as you will note, and has an Edison Base Socket with a stuffing gland in the bottom.

Will fit the following:

Size No. 1—Oil and 1 light electric, Nos. 8, 9 and 10 side, Nos. 14 and 15 bow, Nos. 22 and 22½ anchor. 10 in. globe light, Nos. 84 and 85 anchor.

Size No. 2—Oil and 1 light electric, No. 11 side, No. 16 bow, Nos. 23 and 86 anchor.

Size No. 3—Oil and 2 light electric, No. 11 Side, No. 16 bow, Nos. 23 and 86 anchor.

List price per each, No. 1 size.....\$2.50

List price per each, No. 2 size..... 3.00

List price per each, No. 3 size..... 3.50

Complete with burner and wick. No bulb.

NOTE—When ordering these founts, mention what style or size light they are intended for so we will send the correct size.

All Regular style lanterns can be had with these Two-in-One Combination Oil and Electric founts for a small additional cost over the separate oil and electric founts.

TWO-IN-ONE OR THREE-IN-ONE "PERKO" OIL AND ELECTRIC FOUNTS

are made the same as Figure No. 334 and Figure No. 335, with the exception that it is a sliding fount, such as used in American Improved Lights or Back Door Lights.

Fig. 336

Combination Oil and One Light Electric Complete with burner, wick and chimneys. List price each. All sizes\$4.00

Combination Oil and 2 Light Electric Complete with burner, wick and chimneys. List price each. All sizes\$4.50

When ordering specify for what size lamps these founts are required for so we can send the correct item.

(We reserve the right to use either style Socket—Porcelain or Standard.) No bulbs furnished.

SPECIAL NOTICE

When ordering Lanterns and desire these Two-in-One combination founts inserted in the lamps. Please mention Two-in-One fount and we will allow you a credit for the standard oil founts (at our cost price). The price of lanterns with the Two-in-One combination fount is the list price of the lanterns, plus list price style of fount used, less the usual discount.

"PERKO" PORT LIGHT SCREENS

Push in Type

Made in all sizes to fit the port lights. Brass Frame with Bronze screen.
